Budget Billing

Are the heating months putting a dent into your pocketbook? Have you considered looking into budget billing with Lakota Municipal Utilities? Budget billing is a great way to pay your utility account by averaging out the yearly usage. With budget billing, there will be no surprise utility bill each month, we just require you to pay a set dollar amount each month with no late or delinquent payments. Come in to the city office today to find out what your budget bill would be.

Online System

Have you tried our online system? To view your account online go to www.lakotand.enerlyte.com and take a look. If you have not previously logged in you will need to click on the icon at the top right corner of the page. The information you need to do this is found on your utility bills you receive monthly.

Once you are logged in you will also be able to make a payment to your account, see your usage for the last 12 months and view past bills. Logging into this system does not require you to pay your bills online it is just another way you can view your current balance.

Want to use energy wisely?

As a locally owned municipal utility, our community is our top priority. By encouraging energy efficiency, we support our customers' efforts to save money, improve their comfort and protect the environment. That's why we provide the rebates for high-efficiency ENERGY STAR appliances and other equipment, including:
